SUMMARY

As a Quantity Surveyor with over Nine years of experience successfully delivering construction projects on time, within budget, and to the highest quality standards and specifications, I have a strong background in collaborating with contractors and playing a key role in Fit-outs projects, including Joinery and Millworks. I am confident in all aspects of a project's lifecycle and am skilled in problem solving, numerical analysis, communication, and negotiation. My extensive knowledge of construction and finance allows me to efficiently manage the commercial aspects of projects.
